- New supplementary income report;
- Payroll report analysis is possible based on payment date;
- And much more...

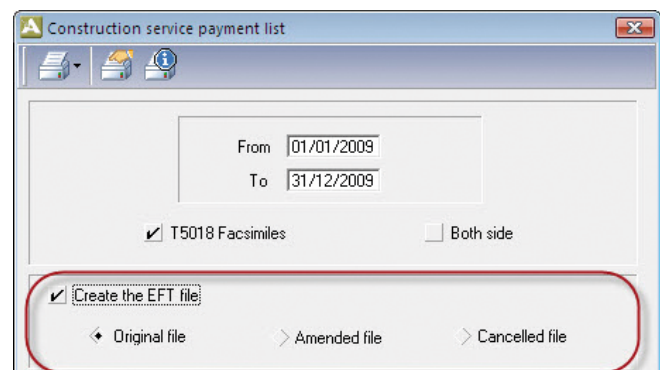

### Bank reconciliation: new interface

The new bank reconciliation interface becomes easier and more intuitive with the introduction of browsing using tabs.

### Contract payment statements

The T-5018 form can be sent via Internet using the same transfer method as the T4's. The process is now automatic through an additional criterion to the report.

### Tax level for supplier management

The supplier file allows you to add a provincial tax level. Calculation management of all Canadian provincial taxes can be done at the accounts payable level.

### Supplementary income report

The Supplementary income report allows viewing of the calculated amounts from the processed wage's supplementary incomes.

### Payroll report based on period or payment date

The "Payroll" and the "Payroll journal" can be produced based on the salary payment date or the period end date.

### And more...

- **Bank reconciliation:** Reconciliation of direct withdrawals and payments via Internet can be cancelled.
- **Time sheet management:** The new "Report on hour reserves (CCQ)" is available via time sheets. The hour in reserves can also be printed on the check reports and the payroll sheet reports.
- **Product labels:** Labels can be reprinted after product receipt.

## Important news

### Windows 95 and Windows 98

Avantage wants to inform you that the NG8.0 version cannot be installed on Windows 95 and Windows 98 operating systems.

### End of Windows 2000 support by Microsoft

Please note that starting July 13, 2010, Microsoft will no longer support Windows 2000.

## Avantage is still going green!
