### Powerful solutions, simple management

### Manage

**A cutting-edge technology that simplifies the accounting management of small and medium-sized businesses.**

The user-friendliness of the Avantage solution is remarkable because its work plan is fully integrated with its auxiliaries, in real-time. In order to simplify your management, Avantage offers you:

- Time saving, simplified training and user-friendly interface
- Live technical support
- Production of the pay and simplified government reports
- Compliance with federal and provincial laws
- Direct transmission of source deductions (SDR) and taxes (Clic Revenu)
- Electronic transfer of salaries and electronic payment of suppliers invoices
- Integrated backup copies for an improved safety.

### Control

**Avantage evolves with your business**

The SMB Avantage Suite includes the Progression, Expansion, Implication and Integration software. Each of these solutions was developed to better answer your business's specific needs according to its size and the sector of activity in which you operate:

- Functional wealth specific to your industry (see comparative chart)
- Unique business or multi-business/single user or network version
- Easy and economical migration from your actual solution to Avantage
- Easy transition through our Avantage SMB suite of solutions
- Avantage Asset Management software offering depreciation and financial management
- Avantage Financial software that allows you to consolidate financial statements, detailed budgets and management of cash flow
- TCP/IP interface that allows linkage between your accounting solution and other management softwares

### Take advantage

**Training, support, service... More than just a software**

Avantage puts quality training, a team of qualified experts ready to answer your questions quickly at your disposal and offers you a turnkey solution for your accounting management needs.

Furthermore, thanks to a perfect integration with Avantage PRO solutions, you can count on a renowned solution via accounting professionals.

Just ask your accountant!
